

**WH**  
**HAEMIC and LYMPHATIC SYSTEMS.**  
**HAEMATOLOGY**

- 1 Societies
  
- 11 History
  
- 13 Dictionaries. Encyclopaedias. Bibliographies  
Use for general works only. Classify with specific aspect where possible
  
- 15 Classification. Nomenclature
  
- 16 Tables. Statistics
  
- 18 Education and training  
Include educational materials for both teaching and study
  
- 19 Schools, departments and faculties of haematology
  
- 20 Research. Research design  
Include research to support evidence-based practice  
Classify research on a specific subject with the subject
  
- 21 Haematology as a profession. Careers  
Include ethics, accountability, etc
  
- 22 Directories
  
- 23 Institutes. Laboratories. Blood banks (as institutions)  
See WB360 for blood bank procedures
  
- 25 Laboratory manuals. Techniques
  
- 26 Equipment and supplies
  
- 26.5 Use of computers, IT and telecommunications technology
  
- 27 Health services. Hospitals. Clinics  
Include health service policy and planning

- 32       Laws
- 33               Discussions of laws
- 35       Nursing care. Haematologic nursing. Care of the patient in general

### HEAMIC SYSTEM

- 100       Blood. Haematology. General works Include works on both blood and lymphatic systems  
          Classify here works covering the specialty and diseases. See WH140 for clinical haematology/ works on diseases only  
          Include atlases  
          See WS440 for paediatric haematology
- 101       Blood structure, function and composition  
          Include haemopoiesis  
          See QY400 for blood tests
- 140       Blood disorders and diseases. General works  
          See QY400 for blood tests
- 141       Diagnosis
- 145       Haematologic manifestations of disease
- 147       Iatrogenic disorders
- 149       Malignant diseases. General works on both the haemic and lymphatic systems  
          See WH500 for lymphatic system only
- 150       Red corpuscles. Erythrocytes
- 155       Anaemia. General works
- 160               Iron deficiency and hypochromic anaemia
- 165               Macrocytic anaemia. Pernicious anaemia
- 170       Haemolytic anaemia. Thalassaemia  
          Include sickle cell anaemia

- 175 Anaemias of bone marrow dysfunction  
Include aplastic anaemia
- 180 Polycythaemia. Polycythaemia Vera
- 190 Haemoglobin and other haemoproteins. Porphyrins  
See WD284 for porphyria
- 200 White blood corpuscles. Leucocytes. Lymphocytes. Monocytes  
Include B and T cells but see QW504-QW940 for immunology. See WH500 for lymphatic system.
- 250 Leukaemia
- 255 Popular works
- 300 Blood platelets. Thrombocytes
- 310 Mechanism of blood coagulation. Haemostasis
- 312 Bleeding disorders. General works  
Include haemorrhagic diathesis and purpura
- 322 Blood coagulation disorders. Haemostatic disorders. General works
- 325 Haemophilia. Haemarthrosis
- 330 Popular works
- 380 Bone marrow. Bone marrow diseases
- 385 Bone marrow transplantation
- 400 Blood fluids. Plasma. Serum. Blood protein disorders
- 420 Blood groups. Blood group incompatibility  
See WB360 for blood bank procedures
- 425 Rh-Hr blood group system  
See WS805 for neonatal jaundice
- 450 Whole blood. Blood derivatives. Plasma substitutes. Blood expanders

**LYMPHATIC SYSTEM**

- 500 Lymphatic system. General works
- 525 Tumours of lymphoid tissue. Lymphomas
- 530 Hodgkin's disease
- 540 Multiple myeloma
- 600 Spleen
- 650 Reticuloendothelial system. Mononuclear phagocyte system
