

WI

DIGESTIVE SYSTEM. GASTROENTEROLOGY

- 1 Societies
- 11 History
- 13 Dictionaries. Encyclopaedias. Bibliographies
Use for general works only. Classify with specific aspect where possible.
- 15 Classification. Nomenclature
- 16 Tables. Statistics. Epidemiology
- 18 Education and training
Include educational materials for both teaching and study
- 19 Schools, departments and faculties of gastroenterology
- 20 Research. Research design
Include research to support evidence-based practice
Classify research on a specific subject with the subject
- 21 Gastroenterology as a profession. Careers
Include ethics, accountability etc.
- 22 Directories
- 23 Laboratories. Institutes
- 25 Laboratory manuals. Techniques
- 26 Equipment and supplies
- 26.5 Use of computers, IT and telecommunications technology
- 27 Health services. Hospitals. Clinics
Include health services policy and planning

- 32 Laws
- 33 Discussions of laws
- 75 Popular works
- 100 Digestive system. Gastroenterology. General works covering more than one area of the digestive tract.
 Classify here works covering the specialty and diseases.
 See WI140 for diseases only
 Include general works on the abdomen
- 101 Anatomy. Histology. Embryology of the foregut
- 102 Physiology. Biochemistry. Digestion
 See WD260 for malabsorption
- 105 Immunology
- 130 Diet and nutrition in gastrointestinal disease
- 140 Gastrointestinal diseases and disorders. General works
 Include gastroenteritis
- 141 Examination. Diagnosis
- 141.5 Laparoscopy
- 142 Ultrasonography
- 142.5 Radiology
- 143 Symptomatology. Manifestations of disease
- 145 Dyspepsia and related conditions
- 146 Nausea. Vomiting
- 147 Abdominal pain. Colic
 Include acute abdomen
- 148 Emergencies

- 149 Neoplasms. General works
Classify with specific organs where possible
- 150 Psychosomatic disorders. Functional disorders
- 155 Therapy. General works
- 160 Surgery of the gastrointestinal tract and abdomen. Include bariatric surgery
See WD110 for bariatric medicine
- 165 Drug therapy
- 170 Gastrointestinal nursing. Care of the patient in general

PARTS OF THE SYSTEM

Classify with the specific part or disease where possible

- 200 Lips. Mouth
See WE400 for facial muscles. Not for dental aspects nor facial nerves
- 210 Tongue. Taste buds. Diseases and therapy. Glossectomy. Include speech therapy
after glossectomy
- 230 Salivary glands. Diseases and therapy
- 250 Oesophagus. Diseases and therapy. Include dysphagia, gastro-oesophageal reflux,
swallowing disorders.

STOMACH

Classify works on stomach AND intestines at WI100

- 300 Stomach and stomach diseases. General works
- 301 Anatomy. Histology. Embryology. Congenital abnormalities.
- 302 Physiology
- 308 Gastric acid. Gastric juice. Include achlorhydria
- 310 Gastritis

- 320 Neoplasms
- 350 Peptic ulcer
- 360 Gastric ulcer. Stomach ulcer
- 370 Duodenal ulcer
- 380 Surgery. Postgastrectomy syndrome.
- 387 Pylorus. Pyloric antrum. Pyloric stenosis

INTESTINES

Classify works on stomach AND intestines at WI100

- 400 Intestines and intestinal diseases. General works. Include colorectal disease here
See WI435 for neoplasms
- 401 Anatomy of the intestines.
- 402 Physiology
- 405 Symptomatology. Diagnosis
Include bowel sounds
- 407 Diarrhoea
- 409 Constipation. Faecal impaction
- 412 Congenital malformations
- 415 Vascular diseases of the intestines
- 420 Inflammation of the intestines
- 422 Crohn's disease
- 425 Diverticulitis. Diverticulosis
- 430 Polyps. Polyposis

- 435 Neoplasms of the intestines in general, including colorectal.
See WI610 for works dealing with rectum and anus only
- 450 Intussusception
- 460 Intestinal obstruction. Ileus
- 480 Intestinal surgery. General works
See WI512-520 for stoma surgery
- 500 Small intestine. Mesentery
- 505 Duodenum
- 510 Jejunum
- 512 Ileum. Ileostomy
Include general works on stoma care
- 520 Colon. Colonoscopy. Colostomy
- 522 Inflammation. Colitis. Ulcerative colitis. Irritable bowel syndrome
- 528 Megacolon, e.g. Hirschsprung's disease
- 530 Caecum
- 535 Appendix. Appendectomy
- 560 Sigmoid
- 575 Peritoneum. Omentum. Peritoneal cavity. Retroperitoneal space.
- 600 Anus and rectum and diseases. General works
- 602 Faecal incontinence
See WJ146 for urinary incontinence and works that cover both urinary and faecal incontinence
See WT148 for incontinence in the elderly
- 605 Haemorrhoids. Fissure in ano. Rectal fistula

610 Neoplasms of rectum and anus
See WI435 for works dealing with colorectal neoplasms

620 Proctoscopy. Sigmoidoscopy

650 Proctological surgery

LIVER AND BILIARY TRACT

700 Liver and biliary tract. General works
See WI712 for liver diseases only

701 Anatomy. Histology. Embryology. Congenital malformations

702 Physiology. Liver circulation

703 Bile. Bile acids, alcohols and salts. Jaundice

704 Liver function in food metabolism

705 Immunology

706 Effects of drugs on the liver

711 Diagnosis
Include biopsy
See QY140 for liver tests

712 Liver and biliary tract diseases and disorders. Pathology. General works

714 Injuries. Trauma

715 Hepatic failure

716 Hepatitis

720 Circulatory disturbances. Portal system. Portal hypertension

725 Cirrhosis of the liver and biliary system

730 Abscess. Biliary fistula

- 735 Neoplasms of the liver. General works
- 740 Degenerative diseases. Hepatolenticular degeneration
- 750 Gallbladder. Bile ducts. Vater's ampulla. Cholecystography
- 755 Cholecystitis. Cholelithiasis. Gallstones
Include cholecystectomy
- 765 Neoplasms of the biliary system
- 770 Liver and biliary tract surgery. General works
Include transplantation

PANCREAS

- 800 Pancreas and pancreatic diseases. General works
Include surgery
- 802 Physiology. Secretions, hormones
See WK800 for Islets of Langerhans
- 805 Pancreatitis
- 810 Neoplasms. Cysts
- 820 Cystic fibrosis.

HERNIA

- 950 Hernia. General works
- 952 Hiatus hernia
- 955 Ventral
- 960 Inguinal
- 965 Femoral
