

WP

GYNAECOLOGY. WOMEN'S HEALTH

Prefer WQ as primary number for works that cover both gynaecology and obstetrics

- 1 Societies
- 11 History
- 13 Dictionaries. Encyclopaedias. Bibliographies
Use for general works only. Classify with specific subjects where possible.
- 15 Classification. Nomenclature
- 16 Statistics. Tables
- 18 Education and training
Include educational materials for both teaching and study
- 19 Schools, departments and faculties of gynaecology
- 20 Research. Research design
Include research to support evidence-based practice
Classify research on a specific subject with the subject
- 21 Gynaecology as a profession. Careers
Include ethics, accountability, etc
- 22 Directories
- 25 Laboratory manuals
- 26.5 Use of computers, IT and telecommunications technology
- 27 Gynaecological services. Hospitals, clinics, etc.
Include health service policy and planning
- 32 Laws
- 33 Discussions of laws

- 100 Gynaecology. General works
Classify here works covering the specialty and diseases. See WP160 for diseases only
Use WQ100 for works covering both obstetrics and gynaecology
See WS458 for paediatric gynaecology; WJ190 for gynaecological urology
- 120 Popular works
Include popular works on women's health in general
See WP155 for Well Women Clinics
- 130 Gynaecological anatomy
Include histology and embryology
- 133 Congenital malformations
- 136 Sex determination. Asexuality. Intersexuality
See HQ320 for general works on transsexualism
- 140 Gynaecological physiology
- 143 Fertility. Subfertility. Sterility. General works
See also with the specific organ
See HQ618 for childless couples; WJ709 for male aspects
- 146 Fertility tests and therapy
Include clinics
See WQ208 for assisted reproduction
- 148 Psychological problems of subfertility
Include fertility counselling
- 150 Examination. Diagnosis. Radiography
- 155 Screening. General works
See W128 for public health aspects of mass screening
Include Well Woman Clinics
- 160 Diseases. Pathology. General works
Classify diseases with specific organ where possible
- 162 Infections and inflammations
- 164 Cysts
- 166 Neoplasms

- 168 Gynaecological nursing
- 170 Gynaecological therapy. General works
Include drug and hormone therapy
- 180 Surgery
Include all works except those on uterine or breast surgery
Include transsexual surgery
- 190 Psychological aspects of gynaecological disorders

INDIVIDUAL ORGANS

Classify with the specific organ or disease where possible

EXTERNAL GENITALS

Include pelvic area, vulva, vagina and perineum

- 200 Pelvic area and external genitals. General works
Include anatomy, physiology and examination
See WP250 for vagina only
- 210 Diseases. General works
- 215 Infections and inflammations
Include genital tuberculosis
See WC140 for sexually transmitted infections
- 220 Dystrophy
- 225 Injuries
Include fistulae
- 230 Neoplasms

VAGINA

- 250 Vagina. General works. Colposcopy
Include anatomy, physiology and examination
- 252 Diseases. General works
- 254 Infections and inflammations
- 255 Vaginitis

- 257 Candida
- 258 Trichomonas vaginalis
- 270 Dystrophy
- 280 Injuries and foreign bodies
- 290 Neoplasms

INTERNAL GENITALS

Include uterus, cervix, uterine ligaments, ovaries, fallopian tubes and pelvic contents generally. Classify with individual organ where possible

- 300 Internal genitals. General works
Include anatomy, malformations and physiology
- 310 Examination. Methods and instruments. Laparoscopy
- 320 Diseases. General works
Classify with individual organ where possible
- 330 Infections and inflammations
Include pelvic peritonitis and cellulitis
See WC140 for sexually transmitted infections
- 340 Injuries and displacement. Torsion
- 350 Neoplasms
Classify with individual organ where possible
- 390 Endometriosis

UTERUS. CERVIX UTERI

- 400 Uterus. General works
Include anatomy, malformations, physiology and examination
See WP250 for colposcopy
- 410 Diseases. General works
- 420 Infections and inflammations
Include endometritis and senile endometriosis

- 430 Injuries. Displacement. Prolapse. Torsion
- 440 Neoplasms. General works
- 450 Benign. General works
- 455 Polyps. Adenoma
- 459 Fibroids. Myoma. Leiomyoma
- 460 Malignant. General works
- 465 Trophoblastic tumours
- 467 Hydatidiform mole
- 469 Choriocarcinoma
- 480 Therapy of uterine neoplasms
See WP550 for uterine surgery
- 500 Cervix uteri. General works
Include histology
- 510 Smear tests
Include screening
- 520 Diseases. General works
- 525 Cervicitis
- 530 Cervical erosion
- 535 Metaplasia
- 540 Cervical neoplasms
Include pre-cancerous stage and Human papilloma virus (HPV) vaccines and prevention
- 545 Therapy of cervical neoplasms

550 Surgery of the uterus. General works

560 Hysterectomy

565 Psychological effects. Counselling

OVARIES

600 Ovaries. General works.
Include anatomy and malformations
See WP650 for diseases only

605 Examination

610 Endocrinology

612 Oestrogenic hormones and synthetic substitutes
See WP646 for hormone replacement therapy in menopause

614 Corpus luteum hormones. Follicle-stimulating hormone (FSH)

618 Ovarian physiology and function.
Include Ovum/Oocytes; Menstrual cycle; Ovulation, Ovulation prediction; Ovulation induction; Ovum donors
See WQ205 for fertilisation, conception and ovum development; QS645 for embryo implantation; WQ208 for ovum donation, IVF, GIFT

620 Menstruation. General works
Include psychological aspects
See WS840 for menarche

621 Disorders. General works

622 Amenorrhoea

624 Heavy periods. Menorrhagia

626 Dysmenorrhoea

628 Premenstrual syndrome (PMS). Premenstrual tension (PMT)

630 Therapy of menstrual disorders

- 640 Menopause. Include premature menopause and post-menopause
- 642 Physical and psychological problems associated with the menopause, premature menopause and post-menopause.
- 646 Hormone replacement therapy (HRT)
See WP612 for oestrogen therapy in ovarian disease
- 650 Ovarian diseases
- 652 Oophoritis
- 654 Cysts. Include polycystic ovary syndrome
- 656 Ovarian neoplasms. General works
- 658 Teratomas
- 660 Therapy of neoplasms
- 670 Ovariectomy / oophorectomy and its effects
See WP612 for oestrogen therapy

FALLOPIAN TUBES

- 680 Fallopian tubes. General works
Include anatomy, malformations, physiology and examination
- 682 Diseases
- 684 Salpingitis
- 686 Neoplasms
- 690 Surgical sterilisation techniques

BREASTS

See WQ265 and WQ550 for care of breasts during and after pregnancy

- 800 Breasts. General works
Include anatomy and malformations. See WP840 for diseases only
- 802 Body image
- 805 Physiology. Lactation. Functional changes
See WQ600-625 for breastfeeding
- 815 Examination. Diagnosis. Radiography. Mammography
- 820 Self-examination
- 840 Diseases. General works
Include gynaecomastia
- 845 Infections and inflammations. Mastitis
See WQ265 for problems during pregnancy
- 850 Hypertrophy
- 860 Cysts
- 870 Neoplasms
- 875 Therapy of neoplasms
- 910 Surgery of the breasts. General works
Include surgery due to breast neoplasms
See WP930 for mastectomy
- 920 Cosmetic surgery
- 930 Mastectomy
- 935 Rehabilitation
- 940 Psychological effects. Counselling
- 945 Breast reconstruction
